Auditing counts! With recent incidents at WorldCom, Enron, Xerox, Tyco, and other companies, auditing has never been so important. Auditing is perhaps our single best defense in ensuring the integrity of our financial reporting system. That's why this new Eighth Edition of Boynton and Johnson's Modern Auditing focuses on decision making and the critical role auditors play in providing assurance about the integrity of the financial reporting system. Known for its clear writing and accessibility, this text provides comprehensive and integrated coverage of current developments in the environment, standards, and methodology of auditing. Features \* Real-world examples relate issues discussed in the chapter to ethics, audit decision making, and the integrity of the financial reporting system. \* Focus on Audit Decisions sections highlight key factors that influence an auditor's decisions. \* Includes discussion of the role of the Public Company Accounting Oversight Board (PCAOB) Auditing Standards, and a chapter feature highlights PCAOB standards that differ from Generally Accepted Auditing Standards for private companies. \* Expanded case material related to the integrated audit case (Mt. Hood Furniture) provides a variety of databases that allow students to utilize generalized audit software (IDEA) to accomplish various audit tasks. Multiple databases allow the case to be reused with different data from term to term. \* A flowchart style chapter preview begins each chapter. \* Chapter summaries reinforce important audit decisions included in the chapter. \* End-of-chapter material organized by audit decisions provides a clear link between audit decisions discussed in each chapter and the problem material.

This new edition is written with two major objectives: (1) to help readers understand audit decision making and evidence accumulation, and (2) reflect changes in the profession by integrating assurance and attestation service as well as risk issues. This 6th edition introduces two new tools that practitioners use to assess risk and to identify assurance service opportunities: Client Strategy Templates and Balanced Scorecards.

\*Includes coverage of international standards and global auditing issues, in addition to coverage of PCAOB Auditing Standards, the risk assessment SASs, the Sarbanes/Oxley Act, and Section 404 audits.\*
