Basic Medical Sciences for MRCP Part 1, (MRCP Study Guides) 9.5 9.0 9.6 3: Basic Sciences for Obstetrics and Gynaecology 9.0 8.5 9.1 4: Basic Maths for the Physical Sciences

Written for candidates sitting their MRCP Part 1 examination, this revision focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and epidemiology which is rarely covered in other texts, but is often included in the exam. Helps MRCP Part 1 candidates prepare for and pass their exam. Addresses an increasingly important topic in the exam. Addresses a topic that is vital to passing the exam, but which most candidates are poorly prepared for. Covers all the relevant basic science subjects plus includes clinical pharmacology. Is of use to candidates studying for other postgraduate exams such as PLAB, USMLE and MRCPCH. Is the first book of its kind in the membership market and is now regarded as essential for exam preparation.

Providing a clear explanation of the relevant medical science behind the individual medical specialities, Basic Science for Core Medical Training and the MRCP, is an indispensable part of a candidate's MRCP preparation. Directly linked to the Royal College exam, the book follows the same systems-based approach as the syllabus for accurate and effective revision. With full coverage of basic science for the medical specialities, the book features material on genetics, cellular, molecular and membrane biology, and biochemistry. Content is presented in an illustrated and easy-to-read format, ensuring that the basic science for each medical speciality is more approachable and accessible. A focus on how the basic sciences aid understanding of clinical practice is reinforced through key tables of differential diagnoses and pharmacology. Ten multiple choice questions at the end of each chapter consolidate learning and enable candidates to test their knowledge. The book also covers common examination errors and areas of misunderstanding to aid learning and help candidates avoid common pitfalls.

Struggling with your basic science revision for MRCP 1? This title helps you to overcome that hurdle so that you are better equipped for the exam. It includes 318 questions that cover genetics, molecular medicine, immunology, microbiology, anatomy, physiology, clinical chemistry, statistics & epidemiology and clinical pharmacology.

A good knowledge of basic science is essential for all those who wish to pass the MRCP exam. This book contains 300 multiple choice questions arranged by subject, with correct answers and detailed explanatory notes for every question. Lists of essential revision topics, tips on MCQ technique and references for further reading are also included.

Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise, Medicine for MRCP is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

Part of the MRCP 1 Pocket Book series, this title features questions and answers providing essential practice for the MRCP Part 1 exam.
