A feature-length doc is long enough to be detailed and comprehensive, so you can pack in enough information to make your case, and it is better than having the definitive book on the subject, because a feature doc is a more populist medium: more people will watch a movie than read a book. Moreover, it is economical.

Demonstrates how documentary work is a narrative constructed by the observer and meant not only to represent reality but to interpret it, and provokes consideration of how fine a line exists between fact and perception.

Powerfully posing questions of ethics, ideology, authorship and form, documentary film has never been more popular than it is today. Edited by one of the leading British authorities in the field, The Documentary Film Book is an essential guide to current thinking on documentary film. In a series of fascinating essays, key international experts discuss the theory of documentary, outline current understandings of its history (from pre-Flaherty to the post-Griersonian world of digital 'i-Docs'), survey documentary production (from Africa to Europe, and from the Americas to Asia), consider documentaries by marginalised minority communities, and assess its contribution to other disciplines and arts. Brought together here in one volume, these scholars offer compelling evidence as to why, over the last few decades, documentary has come to the centre of screen studies.

A New History of Documentary Film, Second Edition offers a much-needed resource, considering the very rapid changes taking place within documentary media. Building upon the best-selling 2005 edition, Betsy McLane keeps the same chronological examination, factual reliability, ease of use and accessible prose style as before, while also weaving three new threads - Experimental Documentary, Visual Anthropology and Environmental/Nature Films - into the discussion. She provides emphasis on archival and preservation history, present practices, and future needs for documentaries. Along with preservation information, specific problems of copyright and fair use, as they relate to documentary, are considered. Finally, A History of Documentary Film retains and updates the recommended readings and important films and the end of each chapter from the first edition, including the bibliography and appendices. Impossible to talk learnedly about documentary film without an audio-visual component, a companion website will increase its depth of information and overall usefulness to students, teachers and film enthusiasts.

This volume offers a new and expanded history of the documentary form across a range of times and contexts, featuring original essays by leading historians in the field. In a contemporary media culture suffused with competing truth claims, documentary media have become one of the most significant means through which we think in depth about the past. The most rigorous collection of essays on nonfiction film and media history and historiography currently available, *A Companion to Documentary Film History* offers an in-depth, global examination of central historical issues and approaches in documentary, and of documentary's engagement with historical and contemporary topics, debates, and themes. The Companion's twenty original essays by prominent nonfiction film and media historians challenge prevalent conceptions of what documentary is and was, and explore its growth, development, and function over time. The authors provide fresh insights on the mode's reception, geographies, authorship, multimedia contexts, and movements, and address documentary's many aesthetic, industrial, historiographical, and social dimensions. This authoritative volume: Offers both historical specificity and conceptual flexibility in approaching nonfiction and documentary media Explores documentary's multiple, complex geographic and geopolitical frameworks Covers a diversity of national and historical contexts, including Revolution-era Soviet Union, post-World War Two Canada and Europe, and contemporary China Establishes new connections and interpretive contexts for key individual films and film movements, using new primary sources Interrogates established assumptions about documentary authorship, audiences, and documentary's historical connection to other media practices. *A Companion to Documentary Film History* is an ideal text for undergraduate and graduate courses covering documentary or nonfiction film and media, an excellent supplement for courses on national or regional media histories, and an important new resource for all film and media studies scholars, particularly those in nonfiction media.
