Journey through a small suburban town and view a special friendship through the eyes of a marble. If you've ever played with marbles, you know how beautiful they can be. There are several different types of marbles, big and small, different colors, alternate designs. And then, there is Aggie, a very special marble. This tale is told from an unusual perspective. Follow a story of adventure, friendship, caring, giving and sacrifice. But most of all, the book details a colorful journey that will enhance the imagination of young readers. This booklet also includes a brief description of the game of marbles. It details what materials are needed and how to set the game up for initial play. The rules of marbles are listed in an easy to understand format. So, why not play one of the oldest and most treasured games right now? This short picture book is targeted at younger children, but the game itself applies to all ages that are able to use marbles, although this may depend upon your own child's progress. The story was developed to learn about friendship, giving, sharing, and acceptance by traveling through the virtual eyes of a marble. The sentences in this book are relatively easy to read, with photographs to help understand the story.

Things to know about the great outdoors. For children. Do you like the great outdoors, do you like adventure? Then why not join B! and see what you can discover together. Nature is so important to us, lets help it out. B! would love that too.

Daily inspiration from American philosopher and transcendentalist Ralph Waldo Emerson Featuring excerpts from Ralph Waldo Emerson's essays, poems, and lectures, Everyday Emerson offers 365 snippets of wisdom and insight from one of America's greatest writers and philosophers. An astute observer of both nature and society, Emerson's writing touches on themes of individuality, freedom, and human potential, all of it shot through with a profound love and awe of the natural world. The excerpts in Everyday Emerson are inspiring and thought provoking—a daily invitation to engage the world with imagination and intention. In addition to daily quotes, the end of the book also includes selections from Emerson's beloved essay "Self-Reliance." Both longtime appreciators of Emerson's work and readers who would be intimidated by a complete book of essays will find something delightful in its pages.

Guide C: Reference Data contains the basic physical data and calculations which form the crucial part of building services engineer background reference material. Expanded and updated throughout, the book contains sections on the properties of humid air, water and steam, on heat transfer, the flow of fluids

There are extensive and easy-to-follow tables and graphs. ·Essential reference tool for all professional building services engineers ·Easy to follow tables and graphs make the data accessible for all professionals ·Provides you with all the necessary data to make informed decisions

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

From the bestselling 1001 series, comes a collection of 1001 quotations from numerous brilliant minds of the Ancient World through to the present day. With quotes from everyone including Marcus Aurelius, Sun Tzu, Shakespeare and Nietzsche through to Ellen DeGeneres, Nelson Mandela, Mark Zuckerberg and Monty Python's Flying Circus, there is an immense range of ideas, witticisms and musings to ponder. The quotations cover a wide range of topics, including art and literature, culture, philosophy, politics, psychology and religion, made accessible and brought to life by being placed in their historical contexts and accompanied by a wealth of illustrations.
