This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. Fully comprehensive and matched to the new 2014 syllabus ·Concise and focused approach simplifies complex ideas, building truly confident understanding ·Clear and explanatory style uses plenty of visuals to make each concept accessible, easing comprehension ·Build a strong foundation of assessment skills, strengthening potential with integrated exam questions ·Develop assessment confidence, drawing on thorough assessment support and advice ·Clear and straightforward language

The most comprehensive coverage of the new 2014 syllabus for both SL and HL, this completely revised edition gives you unrivalled support for the new concept-based approach to learning, the Nature of Science. The only DP Biology resource that includes support straight from the IB, integrated exam work helps you maximize achievement.

Closely supporting the Biology course book, this comprehensive study guide effectively reinforces all the key concepts for the 2007 syllabus at SL and HL. Packed with detailed assessment guidance, it supports the highest achievement in exams.

This course book follows an approach that supports the new 2007 syllabus (to be first examined in 2009) while including the wider aims of the IB through connections to TOK, international-mindedness and the IB learner profile. It has been written by a former chief examiner for IB Diploma Programme Biology and has been extensively reviewed by teachers, consultants and the IB. With features and activities that encourage active learning and critical thinking, students will find this book stimulating and engaging.

The International Baccalaureate® (IB) was founded in Geneva, Switzerland in 1968 as a non-profit educational foundation that endeavored to develop inquiring, knowledgeable and caring young people who would go on to create a better and more peaceful world through intercultural understanding and respect. What began as a single program for internationally mobile students preparing for college, has grown into a series of programs for students up to age 19. Barron's is pleased to offer a brand new review guide for the IB Biology exam. The content of the exam is compiled from the newly revised IB Biology course syllabus. This review book focuses specifically on the syllabus material to ensure that students are fully prepared and includes: An overview of the tests/papers, including an explanation of scoring, command terms, and optional topics based on the brand new 2014 syllabus Connections to the Nature of Science (NOS) theme that runs throughout the syllabus Study tips and strategies for maximizing scores A section on mathematical calculation and statistical analysis review 2 full-length paper 1, 2, and 3 practice exams with fully explained answers The book is formatted to prepare students for either the one-year SL (standard level) or the two-year HL (higher level) biology exam.

The only DP Biology resource developed with the IB to accurately match the new 2014 syllabus for both SL and HL, this completely revised edition gives you unparalleled support for the new concept-based approach to learning, the Nature of science.. Understanding, applications and skills are integrated in every topic, alongside TOK links and real-world connections to drive inquiry and independent learning. Assessment support directly from the IB includes practice questions and worked examples in each topic, along with focused support for the Internal Assessment. Truly aligned with the IB philosophy, this Course Book gives unrivalled insight and support at every stage. ·Accurately cover the new syllabus - the most comprehensive match, with support directly from the IB on the core, AHL and all the options ·Fully integrate the new concept-based approach, holistically addressing understanding, applications, skills and the Nature of science ·Tangibly build assessment potential with assessment support str
