topics that usually give students the most difficulty, and problems/questions are rated throughout in terms of their level of difficulty. Concentrates on those concepts that usually give students the most difficulty. Provides ample opportunity to test the mastery of this material. Rates questions/problems according to their level of difficulty. Additional information provided on the internet site related to this topic - www.blackwellpublishing.com/11thhour.

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

"PRAXIS BIOLOGY Study Guide" 450 questions and answers (ILLUSTRATED). Essential definitions and concepts. Topics: Cells, Biochemistry and Energy, Evolution and Classification, Kingdoms: Bacteria, Fungi, Protista; Kingdom: Plantae, Kingdom: Animalia, Human Locomotion, Human Circulation and Immunology, Human Respiration and Excretion, Human Digestion, Human Nervous System, Human Endocrinology, Reproduction and Development, Genetics, Ecology [=====] ADDITIONAL GENERAL SCIENCES WORKBOOKS: "PRAXIS 2 Prep Flashcard Workbook: CHEMISTRY" 700 questions and answers. Essential definitions, formulas, concepts, and sample problems. Topics: Introduction, Matter, Atoms, Formulas, Moles, Reactions, Elements, Periodic Table, Electrons, Chemical Bonds, Heat, Gases, Phase Changes, Solutions, Reaction Rates, Equilibrium, Acids and Bases, Oxidation and Reduction, Introduction to Organic Chemistry, Radioactivity _____ "PRAXIS 2 Prep Flashcard Workbook: PHYSICS" 600 questions and answers. Essential definitions, formulas, concepts, and sample problems. Topics: Measurement, Motion and Forces, Work and Energy, Heat and Gases, Atoms, Fluids, Sound, Light and Optics, DC Circuits, Magnetism, AC Circuits [=====] "EXAMBUSTERS PRAXIS Prep Workbooks" provide comprehensive PRAXIS review--one fact at a time--to prepare students to take practice PRAXIS tests. Each PRAXIS study guide focuses on fundamental concepts and definitions--a basic overview to begin studying for the PRAXIS exam.
