Austin Ruse, one of TCT ' s founders and formerly a regular columnist here, takes on this challenge directly in his concise but consequential new book [The Littlest Suffering Souls: Children Whose Short Lives Point Us to Christ](#). Christianity, he argues, alone among religions and philosophies finds meaning in suffering as such.

It is said that children learn what they live. But children also teach the adults in their lives lessons on subjects such as unconditional love, self-sacrifice, self-forgetfulness, patience and more. The ordinary way an adult learns these things from his or her children is by caring for them. Every parent knows that. But some extraordinary children seem sent by God to teach us about the "big questions" such as life, death, suffering, and the existence of God. The children in this book, all of whom suffered terribly during their short lives, bore witness to God's love and an understanding of the meaning of suffering and "what to do with it" that belied their years. And their teaching was not limited to their immediate family. Everyone with whom they came into contact, from doctors and nurses, to major political figures and popes to family friends and other children, was profoundly affected by the encounter. This book will make you cry, yes, but the tears will be mixed with something akin to joy at the beauty of the short lives of Brendan, Margaret, and Audrey, and awe at the grace and dignity with which they bore their crosses, lived and enjoyed this life, and ultimately left it to be with the God they all loved. In this time in which there is so much despair and sadness, and in this world in which we are so frequently reminded that it can truly be a "vale of tears," let the Littlest Suffering Souls remind you that this present life is not all there is; let the Littlest Suffering Souls point you to heaven and to Christ.

If you listen to any political argument, you're eventually bound to hear something like: "The science is settled on this." Or: "Just look at the statistics!" Or: "There have been studies that say..." You'd think we were living in the golden age of science and reason. But the truth is far more sinister, says Austin Ruse. We're actually living in the age of the low information voter, easily misled by all-too-convincing false statistics and studies. In Fake Science, Ruse debunks so-called "facts" used to advance political causes one after the other, revealing how poorly they stand up to actual science.

In his compelling new book, [The Catholic Case for Trump](#), Austin Ruse cuts through leftist lies aimed at squashing the Catholic vote and offers his audience – broken down into three categories of Liberal, Faithful, and Generic Catholics – a guide as to why all Catholics should not only vote for President Trump, but do so enthusiastically with confidence that he is the only moral choice. This book examines more than a dozen issues and makes the case that a Faithful Catholic can find not just a reason, but a Catholic reason, to vote for Trump. This is a must-read book for all Catholic voters.

In a series of fascinating interviews, a cradle Catholic (Robert P. George) and an adult convert (R. J. Snell), offer the stories of sixteen converts, each a public intellectual or leading voice in their respective fields, and each making a significant contribution to the life of the Church. Mind, Heart, and Soul is a Surprised by Truth for a new generation. It will reinvigorate the faith of Catholics and answer questions or address hurdles those discerning entering the Church may have...by people have had the same questions and the same road. While some of the converts are well-known, their stories are not. Here they speak for themselves, providing the reasons for belief that prompted these accomplished men and women to embrace the ancient faith. Included are interviews with a bishop, a leading theologian and priest, a member of the International Theological Commission, a former megachurch pastor, a prominent pro-life scholar, professors from Harvard and other universities, as well as journalists and writers, novelists and scholars. Each are interviewed by another leading scholar, many of whom are themselves converts and familiar with the hesitations, anxieties, discoveries, and hopes of those who discover the Faith. These conversion stories remind us that the Catholic Church retains her vitality, able to provide answers and reasons for hope to new generations of believers, always sustained by the Holy Spirit. It is all too-easy to become discouraged in our day and age, but God never fails to call people to Himself, as evidenced by these remarkable stories.
