Open Door is the MS Trust's flagship publication - sent out to 20,000 readers every quarter. It contains news about our work, research updates, interviews with people with MS and advice and support on how best to manage the condition. It's free to our readers, but costs £2 to produce and post each issue. Please donate to help us cover these costs.

Multiple sclerosis is an incurable neurological disease of unknown cause with a fearful reputation for generating disability, unemployment, poverty and early death. This book critically surveys the current state of multiple sclerosis research, demonstrating the shortfall of current research undertaken on the lives of people with multiple sclerosis.

Managing Your Multiple Sclerosis is an invaluable handbook for anyone who has MS or cares for someone who has it. Aimed at people who already have some knowledge or experience of the condition, the book examines the issues of treatment, therapies and rehabilitation in a comprehensive, yet easy-to-read manner.

When attorney Jeffrey N. Gingold misplaced his wife on the living room couch, and became lost while driving just blocks from his home, little did he know that he was experiencing a hidden symptom of multiple sclerosis: cognitive difficulties. Facing the Cognitive Challenges of Multiple Sclerosis is a courageous and compelling personal account of one man's anguishing struggle with this aspect of the disease. It was written for the silent majority of MS patients who are privately dealing with MS cognitive symptoms and potential disabilities. The National Multiple Sclerosis Society estimates that over 400,000 people in the U.S. have been diagnosed with multiple sclerosis, and there are millions more worldwide. Conservatively speaking, half of them will encounter varying degrees of cognitive difficulties. Facing the Cognitive Challenges of Multiple Sclerosis brings this hidden disability into the open. It is an essential resource that will educate individuals coping with multiple sclerosis, and inform their families, caregivers, doctors and therapists.

Worried about your placement? Will you fit in? Will you have the right skills? What do you need to learn for practice assessments? This book will help you with all these concerns. It will tell you what to expect from the placement, what you can learn, how to link theory and practice, and how to make the most of your learning opportunities. A logical, step-by-step approach to preparing for a medical placement Helps make the most of learning opportunities Narratives from other students describe what the placement will really be like Honest discussion of the challenges of a placement in the community to help avoid problems Advice on possible approaches to situations that may arise on a community placement Series features: A unique guide to getting the most from clinical placements What to expect before a placement What you can expect to learn on placement How to consolidate your experience and learning Clear links and examples with NMC proficiencies Guidance on what to use as evidence for portfolios Short case studies to link theory with practice Key points reminder boxes

Worried about your next placement? Will you 'fit in'? Will you have the right skills? What do you need to learn to meet practice assessments? This series will help you with all these concerns. It will tell you what to expect from each placement, what you can learn, how to link theory and practice, and how to make the most of your

Online Library Open Door Ms Trust

learning opportunities. This is the only series specifically for student nurses undertaking specific practice placements, and will give you all the information you need in a user-friendly format. Each book in the series covers a specific area of practice for a typical placement on a pre-registration nursing course. Titles in this series: Surgical nursing Medical nursing Cancer and palliative care nursing Mental health nursing Community care nursing Older people nursing Each book also covers: A unique guide to getting the most from clinical placements What to expect before a placement What you can expect to learn on placement How to consolidate your experience and learning Clear links and examples with NMC proficiencies Guidance on what to use as evidence for portfolios Short case studies to link theory with practice Key points reminder boxes

"Dr. Macaluso has written the Iliad and the Odyssey of multiple sclerosis while playing the part of Odysseus. Amazing!" Carlo Tornatore, MD, Vice Chairman, Department of Neurology Georgetown University Hospital, Washington, DC Vincent F. Macaluso was in medical school when he got the news: he had multiple sclerosis. He soon learned that almost a half million people in the United States have multiple sclerosis—and millions more worldwide. Many have obvious symptoms, such as trouble with walking, balance, and coordination, but

Online Library Open Door Ms Trust

the most insidious aspect of the disease is how it affects the mind. Macaluso shares insights from his vantage point as a doctor and an MS patient, helping his peers understand symptoms they may not grasp and offering wisdom for those who live with the disease. Learn how to • anticipate and overcome problems concentrating; • manage swirling emotions; • understand MS from a neurological standpoint; • preserve and continue to enjoy an active sex life; and • prevent the disease from ruining family life. Laced with humor and filled with diagrams and the author's own recollections about how he's kept MS from controlling his life, this account is essential reading for doctors, patients, and anyone who has an MSer in his or her life.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these

Online Library Open Door Ms Trust

places move, or go out of business and new business places are started giving added employment to members of our race.

When attorney Jeffrey N. Gingold misplaced his wife on the living room couch and lost awareness of his children, little did he know that he was experiencing a hidden symptom of multiple sclerosis: cognitive difficulties. How do you handle getting lost, while driving just blocks from your home? Facing the Cognitive Challenges of Multiple Sclerosis is a courageous and compelling personal account of one man's anguishing struggle with this aspect of the disease. It is written for the silent majority of MS patients who are privately dealing with MS cognitive symptoms and potential disabilities. The National Multiple Sclerosis Society estimates that over 400,000 people in the U.S. have been diagnosed with multiple sclerosis, and there are millions more worldwide. Conservatively speaking, half of them will encounter varying degrees of cognitive difficulties. Facing the Cognitive Challenges of Multiple Sclerosis brings this hidden disability into the open. It is an essential resource that will educate individuals coping with multiple sclerosis, and inform their families, caregivers, doctors and therapists. This new edition has been revised with on-point cognitive strategies and updated MS resources. The book includes a new foreword written by Dr. Dawn Langdon of the UK MS Trust and four

Online Library Open Door Ms Trust

completely new chapters that follow Jeffrey's journey since 2006. He openly explores some MS physical symptoms, which may accompany the thinking impediments that strike at his cognitive awareness and functions. Jeffrey carves a path of finding physical and cognitive wellness, as well as weighing the need to accept beneficial MS medical therapies. Not only did he become more active in the movement to cure MS, the progression of his MS led to a more controversial MS treatment, in effort to make his disease manageable. Jeffrey also shares the benefits of introducing a "safety person" into a life with MS and the strength gained from helping others, even while they may be assisting you. Whether or not a person is dealing with the cognitive issues associated with multiple sclerosis this book deserves to be on the bookshelf of every individual who is dealing with multiple sclerosis.

Three months have passed since Naomi fled the country to escape persecution from Damian Dreagon and the FBI. Living in London all alone, with only a handsome bellhop to keep her company, Naomi patiently waits for guidance on what her next step should be. When Joseph pays her a surprise visit, things start to spin out of her control, for the good and for the bad. Some doors will be closed, and some very important doors will be opened in the last book of The

Online Library Open Door Ms Trust

Window series.
