Disrupting the cycle starts with you. No matter how conscientious we are, we carry implicit bias... which quickly turns into assumptions and then labels. Labels define our interactions with and expectations of students. Labels contribute to student identity and agency. And labels can have a negative effect beyond the classroom. It's crucial, then, that teachers remove labels and focus on students' strengths-but this takes real work at an individual, classroom, and schoolwide scale. Removing Labels urges you to take an active approach toward disrupting the negative effects of labels and assumptions that interfere with student learning. This book offers: 40 practical, replicable teaching techniques-all based in research and best practice-that focus on building relationships, restructuring classroom engagement and management, and understanding the power of social and emotional learning Suggestions for actions on an individual, classroom, and schoolwide level Ready-to-go tools and student-facing printables to use in planning and instruction Removing Labels is more than a collection of teaching strategies-it's a commitment to providing truly responsive education that serves all children. When you and your colleagues take action to prevent negative labels from taking hold, the whole community benefits.

The author of this book chronicles his life dealing with many mental diagnoses. At the age of 22 he had a serious episode of depression. He went on to have 6 (total) episodes over the course of his life. These episodes were going on after being with Westinghouse for 25 years and continued after that in the merger acquisition banking business. Despite this he went to college, and eventually obtained an MBA/Management degree. His goal is to show that anyone with a mental diagnosis can be "happy, healthy, wise and responsibly wealthy." He teamed up with a friend who became a "ghost writer "and together they developed a working relationship to write this story. It took many phone calls, emails, hard work and early morning rewrites to complete the final manuscript.
