and retail are being transformed beyond recognition. As a result, a new global economy is emerging to replace existing national economies. What will it take for individuals, companies, and entire countries to succeed in the new economics of the twenty-first century? Rather than focusing on spending, Lester C. Thurow argues that we must emphasize investment in basic knowledge, education, and infrastructure. Only by committing ourselves to building communal wealth can we maximize opportunities for building personal wealth as well. *Building Wealth* is an indispensable guide to surviving -- and thriving -- in the economies of the twenty-first century.

Collectively, the world's billions of poor people have immense untapped buying power. Prahalad's global bestseller shows why companies can't afford to ignore "Bottom of the Pyramid" (BOP) markets. Now available in paperback, it offers a blueprint for driving the radical innovation companies will need to profit in emerging markets, and using those innovations to become more competitive everywhere.

As the digital economy changes the rules of the game for enterprises, the role of software and IT architects is also transforming. Rather than focus on technical decisions alone, architects and senior technologists need to combine organizational and technical knowledge to effect change in their company's structure and processes. To accomplish that, they need to connect the IT engine room to the penthouse, where the business strategy is defined. In this guide, author Gregor Hohpe shares real-world advice and hard-learned lessons from actual IT transformations. His anecdotes help architects, senior developers, and other IT professionals

This book presents an empirical investigation of the efforts that multinational pharmaceutical companies take in order to find a business model that allows for a profitable access to the Bottom of the Pyramid (BoP) markets. The Bottom of the Pyramid in Africa is frequently mentioned as an attractive market due to its sheer size. Yet most companies struggle to access it because of the low price level, difficult physical market access and challenges when it comes to payment. More specifically, the book investigates the following business model-related questions: Do pharmaceutical companies provide products that meet the needs of the BoP? What characterizes the value generation of the company? What revenue model leads to

a profitable business, and what role does a network of partners play in the business model? Findings reveal that there is no 'one-size-fits-all' answer to these questions. Providing continuous availability, affordability at a good quality of goods and services, creating health awareness, as well as localizing business to achieve a level of inclusiveness are essential prerequisites for success. In the last chapter this book provides a business model prototype that accounts for these key success factors for business at the Bottom of the Pyramid and points to further research topics.
